Village Safe Water Feasibility Studies

AP/AL: Appropriation with Allocations

Category: Health/Safety

Location: Statewide

Project Type: Planning
Recipient: Various
Contact: Dan Easton

Election District: Statewide **Contact Phone**: (907)465-5135

Estimated Project Dates: 07/01/2002 - 06/30/2007

Brief Summary and Statement of Need:

Grants to communities for preparing engineering feasibility studies. The studies identify designs and operating costs for sanitation facilities that are appropriate for the community.

Funding:

	FY2003	FY2004	FY2005	FY2006	FY2007	FY2008	Total
AHFC Div	\$830,300						\$830,300
Fed Rcpts	\$2,488,800	\$2,625,000	\$2,625,000	\$2,625,000	\$2,625,000	\$2,625,000	\$15,613,800
G/F Match		\$875,000	\$875,000	\$875,000	\$875,000	\$875,000	\$4,375,000
Total:	\$3,319,100	\$3,500,000	\$3,500,000	\$3,500,000	\$3,500,000	\$3,500,000	\$20,819,100

State Match Required □ One-Time Project	☐ Phased Project	
25% = Minimum State Match % Required	Amendment	

Operating & Maintenance Costs:

	<u>Amount</u>	<u>Staff</u>
Total Operating Impact:	0	0
One-Time Startup Costs:	0	
Additional Estimated Annual O&M:	0	0

FY2003 Request:

Reference No:

\$3,319,100

33821

Prior Funding History / Additional Information:

Village Safe Water Feasibility Studies has received prior appropriations of 2,093.2 in FY 98, 1,805.4 in FY 99, 4,148.0 in FY 00, 3,342.3 in FY 01, and 3,825.0 in FY 02.

Village Safe Water Feasibility Studies

FY2003 Request: \$3,319,100 Reference No: 33821

The Village Safe Water program provides technical and financial support to Alaska's smallest communities to design and construct water, wastewater and solid waste facilities. Each year, grant funds are made available to the state through the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Agriculture-Rural Development (USDA-RD) program. Those funds require the state to appropriate matching funds. Communities apply each year to the state for grants for sanitation projects. Applications are scored weighing primarily the extent to which proposed projects address critical public health needs, as well as the communities' capacity to operate and maintain the facilities. Grants are awarded for the highest ranking projects. Village Safe Water program engineers work directly with community officials to make sure that planning results in facilities that are appropriate for each community, that facilities are properly and efficiently constructed, and that state and federal grant funds are used appropriately.

This particular appropriation funds grants to communities for preparing engineering feasibility studies. Those studies identify designs for sanitation facilities that are appropriate for the community taking into account local physical features, community operation and maintenance capabilities, capital costs and operating costs.

This appropriation is funded with a combination of EPA grant funds and state matching funds at a ratio of three federal grant dollars for each matching state dollar (a 25% state match).
